— THE MATHS

DIY costs more — *and gives you six suppliers.*

LINE ITEM (BUILD IT YOURSELF, 5-AGENT BROKERAGE)	REALISTIC MONTHLY COST
Domain + 5-page website (freelancer)	R1 500 – R3 500
Email hosting + Microsoft 365 (5 seats)	R1 200
VoIP landlines (3)	R900
Part-time social media manager	R3 500
Lead data (1 000 records)	R3 000+
Airtime allocation	R1 500 – R2 500
DIY total	R11 600 – R14 600
Diamond — everything, one invoice	R13 999

...and DIY gives you six suppliers, six invoices, six support queues. Elevate gives you one — at the same price as the middle of the DIY range.

— COMPLIANCE

POPIA & compliance *built in.*

Every Elevate package ships with the compliance scaffolding small FSPs typically forget to set up. You stop being one DPA complaint away from a problem.

*i.***Compliant lead data**

Records sourced under POPIA. Opt-out workflow handled by us — your agents never touch a non-compliant list.

*ii.***Call recording trail**

Business numbers and VoIP infrastructure give you a defensible record of every consent on every call.

*iii.***Branded email identity**

No more Gmail. A proper @yourbrokerage.co.za address is the foundation of a legitimate Information Officer footprint.

*iv.***Consistent disclosure**

Digital business card and company profile PDF mean every client sees the same regulator-ready disclosure.
